Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The interview concerned the rejection of claim 8 under 35 U.S.C.112 second paragraph. The applicants wanted clarification of the rejection, specifically paragraph 5 where the office action says it is "unclear if the total bit allocation of the frame is changed or just the global gain." The examiner stated that this quotation is intended to clarify where the action says it is unclear what the predetermined threshold refers to. The applicants stated that they would address this issue in their next correspondence for consideration.
